Residential Heating & AC Equipment Requirements:

1. For exterior equipment in the side yard, in a location other than the present location, a copy of the property survey indicating the location of the equipment must be provided.
2. Submit copy of contract between property owner and contractor specifying manufacturer and model #.
3. Manufacturer's installation instructions must be available for the inspector at the job site.
4. All equipment must be installed in accordance with the manufacturer's installation instructions, the 2020 Residential Code of NYS and the National Electric Code.
5. **Smoke detectors must be installed in accordance with the 2020 Residential Code of NYS, Section R314**
6. **Carbon Monoxide detectors must be installed in accordance with the 2020 Fire Code of NYS, Section 915**
7. All requests for inspection must be made 24 hours in advance.
8. Contractors must provide proper proof of insurance along with the application as required by the Workers Compensation Board or have provided a Certificate of Attestation and accept full responsibility for its content and accuracy.

I hereby certify that all new equipment to be installed is in compliance with the performance/efficiency requirements of the 2020 Energy Conservation Construction Code of NYS, Section R403.7 for Residential Dwellings or the 2020 ECCCNY Code, Section C403.3 for Commercial Energy Efficiency.

To be signed by Property/Building OWNER:

I hereby certify that I have full knowledge of the proposed work as described in the attached contract and take no exception to such activity. I understand I am responsible for all necessary inspections and will provide a means of entry to the premises for inspection by the Town of Clarence. I further understand it is ultimately my responsibility that the project meets the NYS Uniform Fire Prevention and Building Code and the Ordinances of the Town of Clarence.
